AMIT JAPULKAR

AIML Engineering Student | Developer | Tech Enthusiast

Nagpur, Maharashtra, India • amitjapulkar20@gmail.com • GitHub • LinkedIn

PROFESSIONAL SUMMARY

Computer Science and Engineering student specializing in Artificial Intelligence & Machine Learning. Building practical web applications and prototypes while strengthening programming, data structures, web development, and database fundamentals. Interested in software development, internships, collaborative projects, and technology communication.

EDUCATION

S. B. Jain Institute of Technology, Management & Research, Nagpur — B.Tech, CSE (AI & ML) | 2025–Present | Expected graduation: 2029 | Current: Second year, third semester

Hutatma Rashtriya Junior College, Ashti — HSC / MSBSHSE, 2024 | 73.17%

Hutatma Rashtriya Vidyalaya, Ashti — SSC / MSBSHSE, 2022 | 80.20%

TECHNICAL SKILLS

Programming: Python, Java, C, C++ **Web:** HTML, CSS, JavaScript, Tailwind CSS, responsive design, DOM **Backend:** Flask **Database:** SQL / MySQL fundamentals **CS:** Data Structures & Algorithms, Object-Oriented Programming **Tools:** Git, GitHub, VS Code, Render, Gunicorn

SELECTED PROJECTS

Interactive Countdown Timer / Smart Countdown Clock & Timer

Responsive timer application with custom duration handling, start/pause/reset controls, and progress feedback. Python/Flask backend and HTML, CSS, JavaScript frontend; deployed on Render. Project link • Repository

MandiMitra — Smart Mandi Management concept

SIH-focused farmer/mandi workflow concept covering Farmer, Staff, and Admin roles, queue/token handling, weighing, payments, receipts, notifications, and multilingual interface planning. Competition result not claimed. Project link

To-Do List with Discipline Tracker

Student productivity project/practical focused on task management and routine tracking using HTML, CSS, JavaScript, and browser-based storage. Confirm final feature list before claiming production completeness. Project link

Web Fundamentals & Basic Frontend Design Practical Series

Coursework repositories covering frontend layout, Tailwind CSS, JavaScript, DOM interactions, and form validation. Project link • Repository

ACTIVITIES & CONTINUOUS LEARNING

- Smart India Hackathon 2026 internal process — working on the MandiMitra project concept; final result/selection not verified here.
- Technotsav — Discipline Volunteer; add specific dates and responsibilities if required.
- Previously mentioned hackathon participation: Promptverse and Hackwhack; outcomes and dates not provided.
- Coding practice with LeetCode and GeeksforGeeks; exact public profile URLs not yet added.
- Previously shared HTML, CSS & JavaScript certificate and Hardware & Networking course; issuer, date, and credential details need verification.

CONTENT & INTERESTS

Web development, Python/Flask, AI/ML foundations, UI/UX design, video editing, Hindi technology content, and practical problem solving.

Resume details should be updated as projects, certificates, and achievements are verified. No unconfirmed awards or professional employment are claimed.
